

**IMPORTANT:**

**Current action plan Covid-19 – Status July 28th 2022  
Information for the camps arrival from now on**

Dear parents, Dear legal guardians,

As you have probably already seen in the media, the number of corona cases is again increasing rapidly across Europe. As a tour operator, we take this issue very seriously and would like to prevent or eliminate cases of corona infections during the summer camps as far as possible. Our primary goal is to offer your children a wonderful and secure time at our young austria camps and to protect our supervisors and hotel staff.

**Due to the current situation, we have decided to take some precautionary measures:**

- ✓ We assume that all camp participants arrive **fever-free and completely healthy**. If there was knowing contact with people infected with corona in the last 3 days before arrival, we ask you to do a PCR test or not to come to the camp. We would be happy to organize a rebooking if possible!
- ✓ We ask all camp participants **for arrival** to present an officially recognized negative test result. We accept the following proofs in digital or print.
  - ✓ Proof from an authorized body (test line, pharmacy, etc.) of a negative result of an antigen test (validity: 24 hours)
  - ✓ Proof from an authorized body of a negative result of a PCR test (validity: 48 hours)Please show the negative test proof to the young austria staff upon arrival (or first contact). There is no test option at the handover location. The various test options in Austria can be found here: [www.oesterreich-testet.at](http://www.oesterreich-testet.at)

We reserve the right to carry out antigen self-test during the camp in suspected cases (symptoms or other affected participants) as well. The test is carried out independently by the child under the supervision and with the support of a supervisor.

If your child **tests positive for Corona twice (antigen self-test)** within 30 minutes, you as the legal guardian will be informed immediately. Please make sure during your child's stay that a parent or authorized person can pick it up **IMMEDIATELY in the event of 2 positive antigen self-tests!** Your child will be housed and cared for in a fully equipped quarantine room until pick up. Accommodation in the quarantine room for more than 24 hours after taking the test cannot be guaranteed.

In order to have the SARS-CoV-2 infection of your child officially confirmed, we ask you to carry out a PCR test with your child in your home town.

The health and well-being of your child is our top priority! In any case, the children will be able to enjoy an uncomplicated, safe and happy time with us!

We are happy to answer any questions you may have at the camp or in the young austria office.

**Your young austria team**
